

## Economics Harbour: Current Affairs

October 18, 2014

1. India has launched a “National Air Quality” Index. It will measure the 8 major pollutants that impact health particulate matter: Nitrogen dioxide, Sulphur Dioxide, Ozone, Carbon Monoxide, Ammonia, Lead.

2. Government has launched “Grow Safe Food” Campaign to improve agriculture output without compromising on nutrition and quality of the produce.

3. Switzerland ready to share the data with Indian authorities regarding the Indian money parked in Swiss Bank. This would help unearth black money, which the day-one priority for Narendra Modi led NDA Government.
